

FILTRINOV

MX WITH BY-PASS ELECTROLYSER WITH SALT & PH DOSING SYS.

MX 25 | COE PH VT

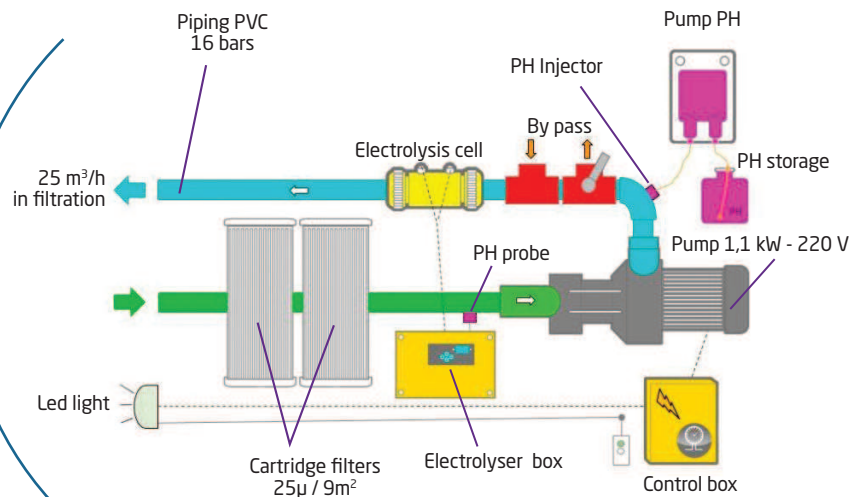

Pools until 110m³ max.
length max. : 12m

Equipment

- A** Removable cover with a mechanical safety (lock)
- B** Control box for filtration (automatic or manual) and lighting
- C** Buried part containing :
 - Filtration pump (25 m³/h)
 - **Salt electrolysis**, composed of a polarity reversal cell and a electronic box in order to make automatic treatment.
 - **PH regulation** : composed of a peristaltic pump and its integrated electronic card to regulate the pH.
 - **By pass system** in order to derivate the water flow until a heat pump for example.
- D** Double filtration cartridges + basket collecting leaves
- E** Balneotherapy (Air flow rate adjustment for massage functions)
- F** Skimmers, two openings for water suction
- G** Directional heavy flow rate
- H** LED light + remote control > Color in option
